

Download und Installation Interaktive Brokers (IB) Trading Tools

4 Schritte zur Installation IB Tools

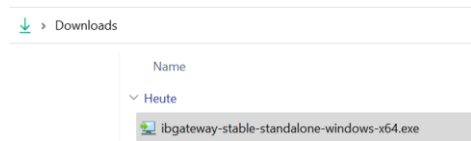

1. Gateway
2. Trading Workstation (TWS)
3. Client Portal API (optional)
4. TWS API

Download 1 von 4 – IB Gateway

1 Öffnen und IB Gateway herunterladen
[Link IB Gateway](#)

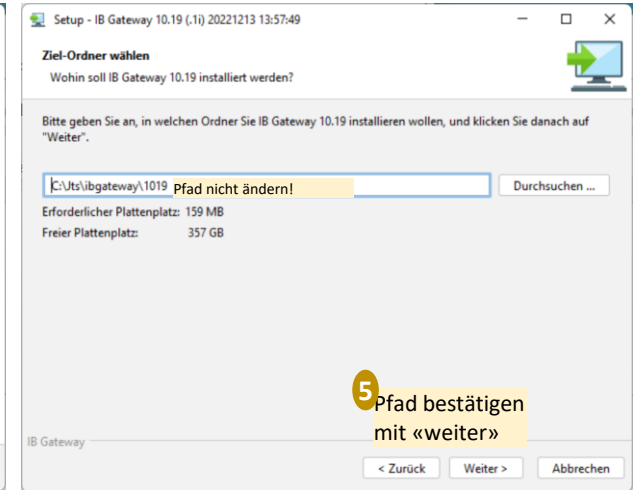

2 Download starten

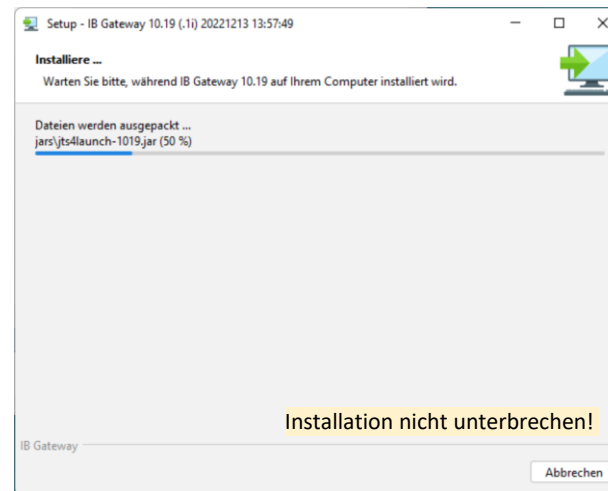

3 IB Gateway im Download-Folder starten

4 Installation starten mit «weiter»

5 Pfad bestätigen mit «weiter»

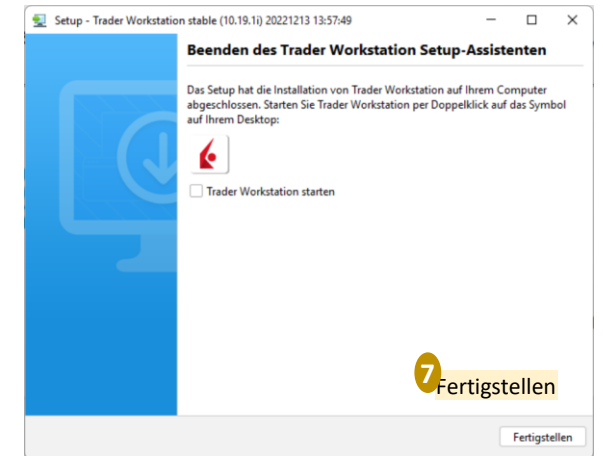

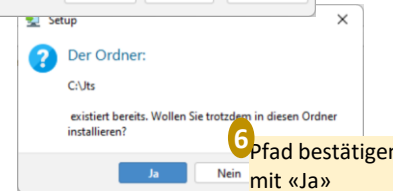

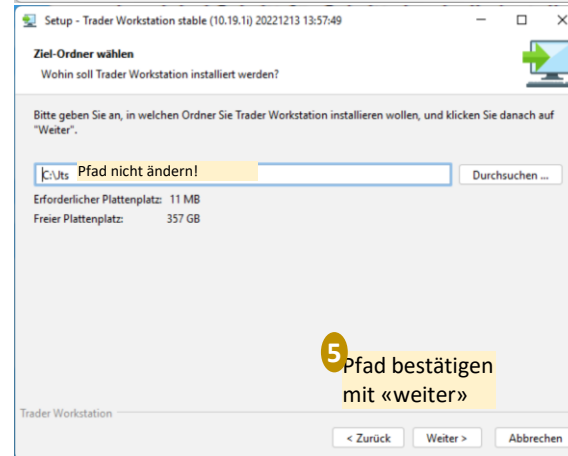

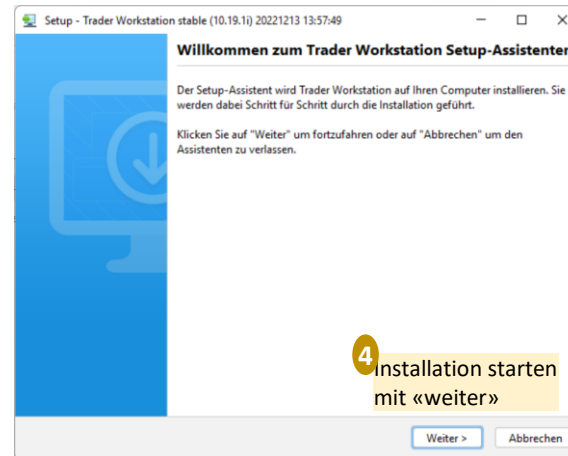

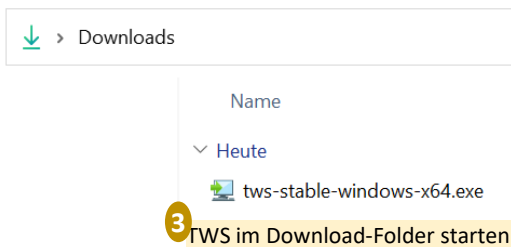

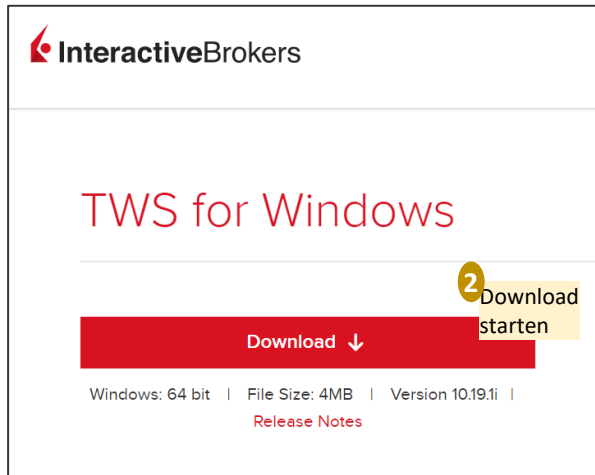

Installation nicht unterbrechen!

5 Fertigstellen

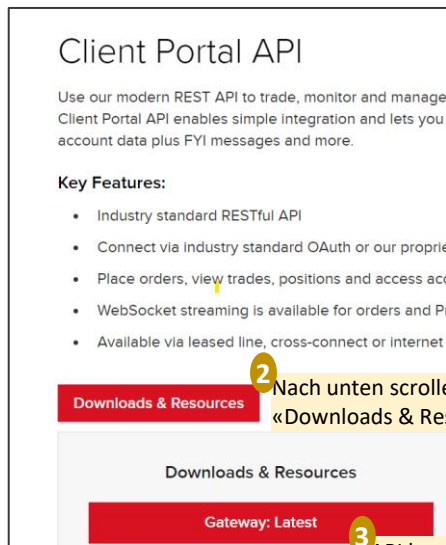

Download 2 von 4 – IB Trading-Workstation (TWS)

1 Öffnen und TWS herunterladen
[Link TWS](#)

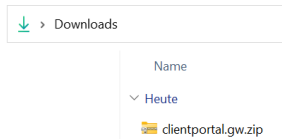

Download 3 von 4 – Client Portal API

- 1 Öffnen und Client Portal API herunterladen
[Link ClientPortal](#)

- 2 Nach unten scrollen und auf «Downloads & Resources» klicken

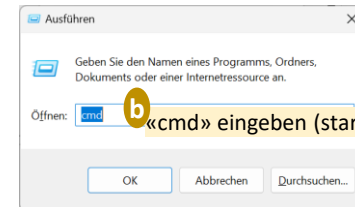

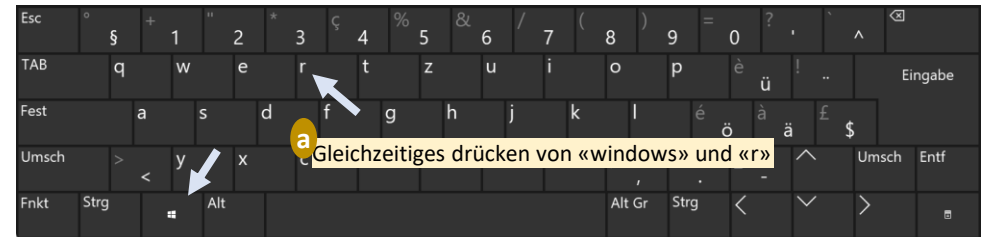

- 3 API herunterladen

- 4 ZIP im Download Folder öffnen

- 5 Kopiere das ZipFile «clientportal.gw.zip» in den neu erstellten Folder «C:\Jts\client_portal» und entpacke das ZipFile darin.

Unter anderem mit den nachfolgenden Schritte a, b und c:

```
mkdir C:\Jts\client_portal
copy %HOMEPATH%\Downloads\clientportal.gw.zip C:\Jts\client_portal
cd C:\Jts\client_portal
tar -xf clientportal.gw.zip
```

- c Die 4 Befehle einzeln in das «cmd» Fenster eingeben und jeweils ausführen mit «Enter»

Download 3 von 5 – TWS API

Trader Workstation (TWS) API

The TWS API is a simple yet powerful interface to automate your trading strategies, request market data and monitor your account balance and portfolio in real time.

Build your own trading application or connect your custom application to TWS so that you can take advantage of our advanced trading tools.

Key Features:

- IBKR's proprietary, open-source API
- Place orders, view trades and positions, access market data, news and account data
- Connect through our proprietary Trader Workstation or IB Gateway platform
- Develop applications in C++, C#, Java, Python, ActiveX, RTD or DDE
- Available via leased line, cross-connect or internet
